Happy Holiday

December 2018

President's Message

The Candor Historical Society formally came into existence in May 1997, which means we are now 21 years old. During that time we have seen several of the people who were charter members and were involved in promoting and preserving Candor history pass on. Because of their interest and efforts the Society was able to grow and thrive. Now we need more like them to fill in the spots they left behind.

One of the major evidences of that growth is that we now have our own building where we can concentrate all of the material that has been accumulated over those years. Thanks to the dedicated efforts of our Board and some of our volunteer members, progress is being made to identify, catalog, and file hundreds of Candor news items, obituary records, and genealogies. Even though it is a daunting task, they are enjoying all the interesting things they are discovering from the past. If this sounds interesting to you, please consider coming in and helping.

By taking possession of a building that was built in the mid 1800's, we find that there are several tasks that need to be done to maintain and improve the building. Currently, the Society is involved in identifying what needs to be done and are seeking ways to fund those projects, including applying for various grants. Membership dues and any additional contributions that are made will help to pay for ongoing expenses and improvements. Tax deductible donations can be made directly to the Society, or by using the "donation" button on our FaceBook page or web site.

Recently, at our Fall Fest sale and open house we got an indication of the increased interest in our plans as several visitors made donations for our building fund with one very generous donation coming from the estate of one of our founding members. That is the kind of support we are excited about and expect, with your help, to see it continue and grow.

My wish for all is that each one will have a happy and joyous Thanksgiving and Holiday Season.
